Expertise
Marine & Naval Environmental Engineering and Program Management
Business processes/management consulting, IT Support, Intelligence Operations and Analysis
Enterprise Information Technology Services & Consulting, Integrated Logistics Services & Management, and Training Services
Systems engineering & integration, Software development, Digital & analog electronics design, and 3-D graphic simulation
Mech, Electrical, Electronic Eng & Design; CAD; Network Eng; Help Desk Supt; Desktop Supt; Admin Supt; Marketing; Recruiting
Naval Arch and Marine Eng; Sys Eng; M&S; Info Mgmt and Tech; Defense Operation; Chem, Bio, Nuclear and Environ Sciences; Wireless Spectrum Eng; Industrial Technology
IT, Acquisition, Contracting, and Procurement with Certified Professional Contract Managers, Information Technology Management and Enterprise Transformation, Organizational Change Management, Business Process Re-Engineering, Strategic Program Management, and
Creating, Developing, and Customizing software & training
Program Management, Financial & Integration of Navy C5I systems, Installation Management, Systems Engineering and Engineering Services
IT & Network, e-Government, Continuity of Operations, Homeland Security, Alert and Notification Services, Integrated Call Centers
National security, Homeland defense, Energy & environment, Health & life sciences, and Transportation & space
Research & Development, Test & Evaluation, Program Facilities & Management, IT, and Telecom & Automation
Force Level Warfare systems, Surface Ship Combat Systems, Ship and Ship Systems, Surface Warfare Logistics and Maintenance
Management consulting, Engineering, Information technology, and Systems development/integration
Custom applications and product development & ORCA® Man Overboard Alarm System
Program Management, Marketing & Communications, Information Technology, Project Engineering and Acquisition Support

Expertise
System Security Engineering, Critical Infrastructure Assurance, Homeland Security, Mission Assurance
System Security Engineering, Critical Infrastructure Assurance, Homeland Security, Mission Assurance
Communications Design, Embedded Linux, VxWorks driver support, Sustaining engineering for obsolete products
Program Management, Systems Engineering, Software Development, and Installation
Advanced materials & manufacturing, C4ISR, Force readiness, and Energy & environmental sustainability
Developer of Weapon Danger Zone (WDZ) tool, Operational weather observations & forecasting, Facility systems engineering.
Interoperability, Test and Evaluation, Trials Support, Program Support, Functional and Administration Support
Management and Information technology consulting
Provider of advanced digital signal processing systems, products, and services in support of intel, surveil, and recon (ISR)
Sys eng; Reliability Ctr Maint analysis, Condition Based Maint assessmnts, Maint Effectiveness Rvws, Planned Maint Sys dev
Self Defense, Internal Security, Critical Infrastructure Devmt, Resource Mgmt, Border Security, and Continuity of Government
Engineering and Technical Support, Strategic and Program Management, Testing and Evaluation, Operations Support and IT
Science and Advanced Technology, Ordnance Logistics Services, Information Technology, and Environmental Compliance
Environmental Mgmt, Homeland Security, Hyperbaric System Design/Production, Nuclear Oper Assess/Training /Safety
System Security, Critical Infrastructure Assurance, Homeland Security, Mission Assurance
Technical Training and Instructional Technology, Programming and IT Technical Services, Strategic IT Planning, Systems Engineering, Engineering Test and Evaluation
Systems Eng/Integration/Simulation, Intelligence, Laboratory Info Management Systems (LIMS), Integrated Logistics
Simulation and Training; Simulator Hardware Life Cycle Upgrades; and Visual System Upgrades

Expertise
Custom software development, Information assurance, Messaging systems, Command & Control, Submarine/Satellite/Border Comms

Expertise
Info Tech and Telecom; Network Sys Integration; Professional and Technical Svcs; Simulation and Training; Sys Eng; Wireless
Engineering Services, Information Technology, Field Services, Manufacturing, and Telecommunications
Professional education & training programs and research, consulting and technical assistance in the area of marine operations & global transportation systems
Engineering and technical support services and products, including the design, development, and integration of airborne radar systems; integration of remote video surveillance, perimeter defense
Integrated logistics support (ILS), life-cycle engineering, Reliability/maintainability/supportability, Human systems interface (HIS)
Expeditionary Warfare; Analyses of warfighting technologies; Eval/analysis of systems & technologies to meet operational capabilities
Engineering Svcs (C4ISR, IA, T&E); Acquisition Sup (FMS, PM); Financial & Admin Svcs (Contract Mgmt, Financial Anal)
Training systems analysis and foreign language Research and Development
Software and systems engineering support for C4ISR, DSP, cryptology, and defense communications systems.
IT services, full systems lifecycle develop; Enterprise resource & PM, PMO planning & implementation, earned value management
R&D for C4I systems; System eng; Modeling and simulation; Human factors engineering; IT; Ship inactivation & disposal; Integrated logistics support; In-service engineering.
Logistics; Dehumidification and HVAC; and IT Solutions
Logistics, Supply Chain Management, Program Management Support, Homeland Security
HM&E design, maint & document; Config mgmt; Tech manuals; Reliability, maintainability & availability studies & analysis
Technical & Acquisition Support; Sys Integration Svcs; Automated Test Equipment; Space Flight; Data Acquisition; Test and Eval
Command & Control, Log & Supply, JCIDS, Non-Lethal Weapons, IT, Network & Help Desk Operations, Training & Education, Force Protection
Systems Eng, Software Eng, Test Eng, Network Eng, Training, and PM Support, Specialty: C4I and tactical systems

Expertise
Acoustic, Cable install & repair, fiber optic, Magnetic, ocean, optical telemetry, range, signal processing, submarine cabler
Mission assurance/ COOP. We also provide network architecture engineering, information assurance, cyber security, C&A and IV&V services.
Enterprise Architecture, Mission Planning, Portfolio Management, and Service Oriented Architecture (SOA) implementations
Engineering, Research and Development, and IT services
Modeling & Simulation; R&D; New technology integration, Joint forces transformation, human performance and behavior modeling
Program management & financial data base support; Training support; Admin support
Public policy research institute providing technology forecasting & trends, and policy implications of technology.
Software , Network & Internet Engineering, Project Management, Information Assurance, Acquisition / JCIDS Process Management
Information assurance solutions; LAN/WAN management; system design, development, integration & production
Systems Analysis, Systems Engineering, Programming, Networking, Networking Security, Network Management, Training
Tactical Data Links, SOA development, Remote Re Keying & Monitoring, Medical IT Architecture, IT Services, Software IV&V
System engineering; In-service engineering; Integrated logistics support; Training support.
Intelligence, Middle East Foreign Expertise; Cultural Awareness Training, Antiterrorism & Force Protection; and Training & Education.
C4I Systems, Training & Integrated Logistics Support, Homeland Security-AT/FP Support, C2 Support, and Software Services
scientific and engineering expertise to the White Sands Missile Range, information sciences, and security systems

Expertise
Recording applications: Radar Systems, Sig Intelligence, Telemetry, Surveillance & Reconnaissance, and Telecommunications
System engineering, Software, Information technologies, Modeling & simulation, and Program management
Engineering services in design, development and integration of complex systems. Technical expertise in electronics, communications, software, C4ISR, and power systems especially for
Condition-Based Maintenance (CBM), and Machinery health monitoring
Engineering, Logistic and Technical Services to State, Local and Federal Government Agencies and Commercial Enterprises. The core of the business involves the assessment, analysis and
Systems engineering, Software, Test & evaluation services; and Submarine electronic systems
IT architecture, Command & Control systems, Anti-terrorism, Special Operations, Military infrastructure
Software Engineering & Development, System Integration, Database Design, Web Enablement, Accounting Systems
Web-based Software, Software design & development, Global delivery platform
Information connectivity solutions that capture, analyze and present real-time information
Systems engineering, Hardware & software integration, IV&V, and Testing
Modeling & simulation, weapons technology, missile defense, conditioned-based maint, sys engineering/tech assist (SETA), and training
Common Data Link, Signals Intelligence, Horizon Extension, Data Handling & Routing Networking, C&A / IA
Logistic support, Training, Facilities management, Systems engineering, Program management, and Information technology
Program management & acquisition support using DOTMLPF in collaborative process to guide the development of C4ISR systems
Precision Engagement & Mobility Systems, Network & Space Systems, Support Systems, Advanced Systems, Joint Ventures
Acquisition management, Engineering, Design & fabrication, Program management, Financial management, and Information technology
Business process reengineering, Performance management, Standards & regulatory compliance, and Quality management

Expertise
Operations Analysis, Organizational Development, International Relations & Studies, Training, and Scenario Development
Shipboard defensive systems, Combat systems, Radar systems, Electro optic, and Mine warfare technology
Intelligence and Investigations; Cyber Support; Operational Support; Training; RDT&E; Special projects
Technology Integration and Operations, Quality Management, Business Intelligence and Data Warehousing, Quality Management
ZAI provides technical expertise in program, financial, logistics, configuration and acquisition management; life-cycle engineering; e-business; digital libraries; and document management
